

CLASS PIANO WORKSTATION

Within reach, without crowding.

The Class Piano Workstation is designed with your students in mind - making it easier for them to organize their piano space. The ergonomic design places everything within comfortable reach without crowding piano keys, controls, or speakers. And there's more surface space for their computer, monitor, keyboard, mouse and music.

The Class Piano Workstation is built solid and fits securely onto flat-top 76-key and 88-key digital upright pianos. The computer keyboard shelf slides slightly forward providing simultaneous access to piano keys and keyboard. Or it can slide completely out of the way when not in use. And the transparent acrylic Music Holder puts music at eye level without creating a barrier to the front of the room.

CLASS PIANO WORKSTATION

SECURE

It's perfectly stable and perfectly safe for your instrument. Removable, no-residue suction cups securely fasten the workstation to the top of most stand-alone 76-key and 88-key digital pianos. The workstation also features adjustable supports to better fit electronic piano tops.

ERGONOMIC

Wenger excels at optimizing function in limited spaces and that is the essence of this design. All elements are right where you want them, within comfortable reach. The pull-out keyboard shelf lets you work on both keyboards simultaneously, and the spacious desktop provides lots of room for monitors, speakers, and other accessories.

AESTHETIC

A product this smart and sophisticated should look the part, and it does. The strong, streamlined look is a fitting crown for any digital upright. To maintain appearances, the back cover can secure and conceal any cords and power strip. Choose from a variety of attractive finish options to create your own custom aesthetic.

STANDARD COLORS:

Reinforced construction that looks good, lasts long and handles the heaviest of loads.

The extra wide platform can hold larger monitors and hard drives and still have plenty of room for students to work. Durable polyester laminate available in seven color combinations, the workstation is an attractive accent to any piano. And wiring is concealed and protected by a back panel cover that includes a 6-outlet power strip.

PRODUCT SPECIFICATIONS:

- Size/Dimensions:
 - 60"w x 18"d x 5"h (1524 x 457 x 127 mm)
