

STUDENT CHAIR

Wenger®

The most helpful music chair in history.

The classic Wenger Student Chair has helped support correct posture in more music education facilities than any other chair. Like every Wenger Posture Chair, our Student Chair model puts musicians in the ideal performing position, all the while reducing discomfort so students can focus on technique.

Durable and good-looking, Wenger Student Chairs also bring a polished, uniform appearance to your program.

STUDENT CHAIR

WENGER'S POSTURE CHAIR DESIGN DUPLICATES THE BENEFITS OF STANDING POSTURE IN A SEATED POSITION.

The problem with common chairs.

In a standing position, your rib cage is expanded for maximum breath intake. Your diaphragm is unconstricted for greater breath support. Your hips are rotated forward, allowing your back to follow its natural, supportive lumbar curve. The result is the ideal posture for singing or playing an instrument.

But sit in any nonposture chair and your body's immediate reaction is to slouch. When you sit back your spine is forced out of its natural supportive position. This forces your body down, lowering your rib cage and constricting your diaphragm. To compensate for this discomfort and lack of support, you move to the edge of the seat. You'll continue this cycle as long as you're seated, bringing on rapid fatigue and making it difficult to focus on technique.

The Wenger Solution: Posture Chairs

Sit in a Wenger Student Chair, one of our exclusive Posture Chair models, and you immediately notice how the chair's contours help duplicate the body's natural standing position. Your hips are slightly forward, putting your spine in its strongest, most naturally comfortable position. Your rib cage is raised as though you were standing, giving your diaphragm unobstructed movement. Your body is held firm, but comfortable. It's difficult to slouch and easy to concentrate on mechanics and performance.

Wear-resistant polypropylene back wraps around chair frame for a finished, professional look.
